

FAA Approved Part 141 Ground School

for
Instrument Rating
Instrument-Instructor Rating
Refresher for Instrument Rated Pilots

May 11 thru June 5, 2011

Sunday 9AM to 4PM with a
1 hour lunch, *plus*
Wednesday 6PM to 9PM
in the Aero-Tech LEX lobby

Pass your instrument knowledge exam in 4 weeks. The FAA has changed the test questions and the majority of pilots who just study test questions do *not* pass the exam. We do it differently. Our emphasis is on teaching you to be a safe, confident and competent instrument pilot. If you know your stuff, you'll pass the test. We know. We've been doing this for 40 years. If you are serious about becoming an instrument pilot, we are here to help.

\$500 for 12 class
(that's 36 hours of valuable training from a seasoned flight school @ \$13.88/hr)
+ \$250 for materials & FAA Knowledge Exam
Need to miss a class? No problem, make-ups available.

Attend One or Attend them All

If you need a little support but not a complete ground school, then consider our individual class schedule. Each class may be purchased separately. Attend only what you want, pay for only what you need. To reserve your seat, please let the Chief know at least 24 hours in advance that you will be attending. *Note: We are only able to give an endorsement to take the FAA knowledge exam, when enrolling into the complete course.*

Class	Subject	Day	Date	Instructor
Class 1 ...	The IFR Pilot and Plane	Wed	5/11	Don
